A Message From Our General Manager

As the first quarter of 2025 passes PBT, what a great summer it's been in New Zealand in comparison to the last couple of summers. Hopefully, everyone has enjoyed some prolonged fun events and time with family and friends, and made the most of the great outdoor life NZ has to offer.

Our customers are giving us positive feedback regarding our ongoing increased delivery performance across New Zealand, and this is attributable to a key focus and experience in the business by our team.

The PBT team has been busy and used the last quarter to complete some of our key projects around emissions, including a national rollout of Heli Electric Forklifts in partnership with Central Group, and the renewing of our car and Ute fleet with the new Toyota Hybrid range of vehicles provided by Fleet Partners.

Container delivery and logistics storage have seen some positive upgrades in fleet and services nationally, and a huge thank you to TR Group, who has completed replacement vehicles and updated branding across our national fleet.

In the next quarter, we are hoping for improvements over the previous months, with a drop in the OCR again, giving New Zealanders mortgage and loan rate relief, which we are hopeful will translate into improved industry sector growth for transport.

Our team continues to improve PBT software systems, and we are excited in the next quarter to upgrade some of our scanning milestones to help support customer needs.

We hope everyone has a great Easter and ANZAC period and thank you for your continued partnership with PBT.

Best Regards,

BRETT CHATFEILD
General Manager - PBT Group

Enhanced Service for the Kāpiti Coast

We've made a change to improve service reliability and tracking in the wider Kāpiti Coast. Previously, we worked with an agent to service this area from Wellington, but now, we're bringing it in-house. From now on, deliveries to the Kāpiti Coast will be handled by our own dedicated drivers and trucks, operating directly from our Wellington and Palmerston North branches. This ensures that your freight remains entirely within the trusted PBT Express Freight Network.
